What's Best Value?

"We think best value is a combination of service, quality and price, and that's how we define the Customer Supply Center program."

Electric Etcher (Engraver)

Designed for engraving glass, plastics, wood, stone and metals. Heavy-duty vibrator-type etcher features an etching point that reciprocates at 7200 strokes per minute and an adjustment knob that varies width and depth marking. Etcher operates on 120v AC and is furnished with six alloy steel etching points: two with diamond tips and four with tungsten carbide tips.

Lead Seal Hand Press

Nickel-plated hand press is for use by government inspectors to apply and secure lead seals on doors, crates, hasps and other enclosures and locks. Jaws open to 3/16" with steel press dies in place. Spring returns handles to open position. Dies form a raised impression on the seal. Latch loop holds press in closed position when not in use. Tool steel contact surfaces are hardened for long wear. Has iron or steel handles and a steel frame.

Dies are reversible.

Reversible upper die has "US" printed on one side and a blank surface on the other side; lower die is blank.

5120-00-221-1668

EA \$28.49

Dies are nonreversible.

One die has the "US" legend and the other has the Ordnance Corps "Flaming Bomb" insignia.

5120-00-224-7592

EA \$42.40

*Has blank upper and lower dies.*
